Stádas: Submitted

Aighneacht:

Promotion of the Circular Economy and effective waste management

Údar:

Southern Region Waste Management Plan Office (SRWMPO)

Comhairliúchán:

Draft Carlow County Development Plan 2022-2028

Chapter 16: Development Management Standards

Caibidil: Volume 1: Written Statement » Chapter 16: Development Management Standards

Proposed inclusion of reference to *Waste Management Infrastructure – Guidance for Siting Waste Management Facilities*

The upcoming *National Waste Management Plan for a Circular Economy (NWMPCE)*, which is likely to be made in early 2022, will replace the Southern Region Waste Management Plan 2015-2021 and the regional waste management plans for the other two regions. The NWMPCE will include the new guidance document '*Waste Management Infrastructure – Guidance for Siting Waste Management Facilities*', the scope of which includes broad siting criteria and facility specific guidance for consideration when siting a waste facility. We recommend that reference to this new guidance document be made within Section 6.6 *Waste Management* and within Chapter 16 *Development Management Standards*, in particular Section 16.11.8 *Waste Management Infrastructure*.

Proposed inclusion of reference to new draft *Best Practice Guidelines for the preparation of Resource Management Plans for Construction & Demolition Waste Projects*

Please note that in April 2021 the Environmental Protection Agency published the new draft guidelines, '*Best Practice Guidelines for the preparation of Resource Management Plans for Construction & Demolition Waste Projects*', for which public consultation closed in June 2021. The draft guidelines, which will be finalised shortly, supersede the '*Best Practice Guidelines on the Preparation of Waste Management Plans for Construction and Demolition Waste Projects*' which were published in July 2006. We recommend that reference be made to these new draft guidelines - in Section 6.6.5 with reference to Construction and Demolition Waste and in Section 16.11.5 on Construction and Environmental Management Plans.
