Section 1 Introduction and Background

1.1 Introduction

This is the Strategic Environmental Assessment (SEA) Screening Report for the Proposed Amendments to the Carlow-Graiguecullen Joint Urban Draft Local Area Plan 2024-2030, hereafter referred to as the "Draft Plan".

SEA is the formal, systematic evaluation of the likely significant environmental effects of implementing a plan or programme, or amendment to a plan or programme, before a decision is made to adopt it. The SEA Directive¹ requires, inter alia, that SEA is undertaken for certain plans, programmes or amendments to these. Screening is the process for deciding whether a particular plan - or amendment to a plan -, other than those for which SEA is mandatory, would be likely to have significant environmental effects, and would thus warrant SEA.

The purpose of this report is to inform whether or not to undertake SEA on the Proposed Amendments to the Draft Plan. Requirements in relation to the screening of Proposed Amendments are provided under Section 20 (3) of the Planning and Development Act 2000, as amended, and Article 8 of the Planning and Development (SEA) Regulations 2004, as amended.

This report should be read in conjunction with the Draft Plan and all other associated documents including the:

- Proposed Amendments to the Draft Plan;
- Screening for Appropriate Assessment (AA) Report for Proposed Amendments to the Draft Plan;
- SEA Environmental Report for the Draft Plan; and
- AA Natura Impact Report for the Draft Plan.

1.2 Process so far

The Draft Plan has been progressed to date in compliance with Sections 19 and 20 of the Planning and Development Act 2000, as amended.

SEA² is being undertaken on and has informed the Draft Plan in order to comply with the SEA Directive and transposing Regulations – the SEA Environmental Report that accompanied the Draft Plan on public display contains the findings of the assessment.

AA³ is also being undertaken on the Draft Plan (informing both the Draft Plan and the SEA) in order to comply with the Habitats Directive and transposing Regulations. An AA Natura Impact Report was prepared that contains the findings of this assessment and accompanied the Draft Plan on public display.

The Draft Plan associated SEA and AA documents were placed on public display and submissions were invited. Submissions were responded to in a Chief Executive's Report and Elected Members decided upon Proposed Amendments to the Draft Plan and these are the subject of this report.

¹ Directive 2001/42/EC of the European Parliament and of the Council of Ministers, of 27th June 2001, on the Assessment of the Effects of Certain Plans and Programmes on the Environment

² Strategic Environmental Assessment is the formal, systematic evaluation of the likely significant environmental effects of implementing a plan or programme, or alteration to a plan or programme, before a decision is made to adopt it.

³ Appropriate Assessment is an impact assessment process concerning European Sites designated on foot of habitats and species.

1.3 SEA Environmental Report (December 2023)

The SEA Environmental Report for the Draft Plan contains the information specified in Annex I of the SEA Directive and Schedule 2B of the Planning and Development (SEA) Regulations 2004 (S.I. 436 of 2004) as amended. The relevant sections of the SEA Environmental Report that address these information requirements are detailed on Table 1.1 below.

The assessment undertaken on relevant Proposed Amendments (the findings of which are presented later in this document) has used the information contained in the SEA Environmental Report.

Table 1.1 Information contained within the SEA Environmental Report that accompanies the Draft Plan

Information Required to be included in the Environmental Report	Corresponding Section of this Report
(A) Outline of the contents and main objectives of the plan or programme, and of its relationship with other relevant plans and programmes	Sections 2, 5 and 8
(B) Description of relevant aspects of the current state of the environment and the evolution of that environment without implementation of the plan or programme	Section 4
(C) Description of the environmental characteristics of areas likely to be significantly affected	Sections 4, 7 and 8
(D) Identification of any existing environmental problems which are relevant to the plan or programme, particularly those relating to European protected sites	Section 4
(E) List of environmental protection objectives, established at international, EU or National level, which are relevant to the plan or programme and describe how those objectives and any environmental considerations have been taken into account when preparing the Plan	Sections 5, 7, 8, 9 and Appendix I
(F) Describe the likely significant effects on the environment	Sections 7 and 8
(G) Describe any measures envisaged to prevent, reduce and as fully as possible offset any significant adverse environmental effects of implementing the plan or programme	Section 9
(H) Give an outline of the reasons for selecting the alternatives considered, and a description of how the assessment was undertaken (including any difficulties)	Sections 3, 6, 7 and 8
(I) A description of proposed monitoring measures	Section 10
(J) A non-technical summary of the above information	Appendix II Non-Technical Summary
(K) Interrelationships between each environmental topic	Addressed as it arises within each Section

Section 2 SEA Screening

2.1 Introduction

This section examines whether each Proposed Amendment to the Draft Plan would be likely to have significant environmental effects (and thus would warrant the undertaking of SEA).

This examination takes account of relevant criteria set out in Schedule 2A '*Criteria for determining whether a plan is likely to have significant effects on the environment*' of the Planning and Development (SEA) Regulations, as amended, (see Section 2.5).

2.2 Strategic Flood Risk Assessment

Strategic Flood Risk Assessment (SFRA) is being undertaken to inform the preparation of the Draft Plan and has informed this SEA Screening.

2.3 Appropriate Assessment

Appropriate Assessment (AA) is an impact assessment process concerning *Natura 2000*, or *European*, sites - these sites have been designated or proposed for designation by virtue of their ecological importance. The Habitats Directive⁴, its transposing Birds and Natural Habitats Regulations 2011 (as amended) and the Planning and Development Act 2000 (as amended) provide the requirement to screen for likely significant effects on European Sites. If the effects are deemed to be *significant, potentially significant or uncertain*, then Stage 2 AA must be undertaken.

The Plan is being subject to Stage 2 AA and an AA Natura Impact Report was placed on public display alongside the Draft Plan. At adoption of the Plan, the AA Natura Impact Report will be finalised and AA determinations made by the Councils.

An AA screening process has been undertaken on the Proposed Amendments. This process has demonstrated that Stage 2 AA for the Proposed Amendments is not necessary - a Screening for AA Report contains this information, has informed this Screening for SEA Report and accompanies the Proposed Amendments.

2.4 Screening Analysis of Proposed Amendments

The analysis of Proposed Amendments is undertaken considering interactions Strategic Environmental Objectives (see Table 2.1). Table 2.2 examines whether each part of the Proposed Amendments would be likely to have significant environmental effects (and thus would warrant the undertaking of SEA).

Table 2.2 is supplemented by Table 2.3 which provides details on:

- Likely significant effects of implementing the Draft Plan, if unmitigated;
- Key mitigation measure(s) that are already contained within the Draft Plan; and
- Likely residual non-significant adverse effects arising from the Draft Plan.

Effects encompass the full range of effects⁵, including those arising cumulatively – such as those potentially arising as a result of interactions with other plans and programmes.

⁴ Directive 92/43/EEC on the conservation of natural habitats and of wild fauna and flora

⁵ These include secondary, cumulative, synergistic, short, medium and long-term permanent and temporary, positive and negative effects

The examination of Proposed Amendments also takes into account relevant criteria set out in Schedule 2A 'Criteria for determining whether a plan is likely to have significant effects on the environment' of the SEA Regulations, as amended, (see Section 2.5).

Table 2.1 Strategic Environmental Objectives

Environmental Component	SEO Code	Guiding Principle	Strategic Environmental Objectives
Biodiversity, Flora and Fauna	BFF	No net contribution to biodiversity losses or deterioration	<ul style="list-style-type: none"> To preserve, protect, maintain and, where appropriate, enhance the terrestrial, aquatic and soil biodiversity, particularly EU designated sites and protected species Ensure no adverse effects on the integrity of any European site, with regard to its qualifying interests, associated conservation status, structure and function Safeguard national, regional and local designated sites and supporting features which function as stepping stones for migration, dispersal and genetic exchange of wild species Enhance biodiversity in line with the National Biodiversity Strategy and its targets To protect, maintain and conserve natural capital
Population and Human Health	PHH	Improve quality of life for all ages and abilities based on high-quality, serviced, well connected and sustainable residential, working, educational and recreational environments	<ul style="list-style-type: none"> Promote economic growth to encourage retention of working age population and funding of sustainable development and environmental protection and management Ensure that existing population and planned growth is matched with the required public infrastructure and the required services Safeguard citizens from environment-related pressures and risks to health and well-being
Soil (and Land)	S	Ensure the long-term sustainable management of land	<ul style="list-style-type: none"> Protect soils against pollution, and prevent degradation of the soil resource Promote the sustainable use of infill and brownfield sites over the use of greenfield Safeguard areas of prime agricultural land and designated geological sites
Water	W	Protection, improvement and sustainable management of the water resource	<ul style="list-style-type: none"> Ensure that the status of water bodies is protected, maintained and improved in line with the requirements of the Water Framework Directive Ensure water resources are sustainably managed to deliver proposed regional and County growth targets in the context of existing and projected water supply and wastewater capacity constraints ensuring the protection of receiving environments Avoid inappropriate zoning and development in areas at risk of flooding and areas that are vulnerable to current and future erosion Integrate sustainable water management solutions (such as SuDS, porous surfacing and green roofs) into development proposals
Material Assets	MA	Sustainable and efficient use of natural resources	<ul style="list-style-type: none"> Optimise existing infrastructure and provide new infrastructure to match population distribution proposals - this includes transport infrastructure Ensure access to affordable, reliable, sustainable and modern energy for all which encourages a broad energy generation mix to ensure security of supply – wind, solar, hydro, biomass, energy from waste and traditional fossil fuels Promote the circular economy, reduce waste, and increase energy efficiencies Ensure there is adequate sewerage and drainage infrastructure in place to support new development Reduce the energy demand from the transport sector and support moves to electrification of road and rail transport modes Encourage the transition to a zero-carbon economy by facilitating the development of a grid infrastructure to support renewables and international connectivity. Reduce the average energy consumption per capita including promoting energy efficient buildings, retrofitting, smart-buildings, cities and grids.

Environmental Component	SEO Code	Guiding Principle	Strategic Environmental Objectives
Air	A	Support clean air policies that reduce the impact of air pollution on the environment and public health	<ul style="list-style-type: none"> • To avoid, prevent or reduce harmful effects on human health and the environment as a whole resulting from emissions to air from all sectors with particular reference to emissions from transport, residential heating, industry and agriculture • Maintain and promote continuing improvement in air quality through the reduction of emissions and promotion of renewable energy and energy efficiency • Promote continuing improvement in air quality • Reduction of emissions of sulphur dioxide, nitrogen oxides, volatile organic compounds, ammonia and fine particulate matter which are responsible for acidification, eutrophication and ground-level ozone pollution • Meet Air Quality Directive standards for the protection of human health — Air Quality Directive • Significantly decrease noise pollution and move closer to WHO recommended levels
Climatic Factors⁶	C	Achieving transition to a competitive, low carbon, climate-resilient economy that is cognisant of environmental impacts	<ul style="list-style-type: none"> • To minimise emissions of greenhouse gasses • Integrate sustainable design solutions into infrastructure (e.g. energy efficient buildings; green infrastructure) • Contribute towards the reduction of greenhouse gas emissions in line with national targets • Promote development resilient to the effects of climate change • Promote the use of renewable energy, energy efficient development and increased use of public transport
Cultural Heritage	CH	Safeguard cultural heritage features and their settings through responsible design and positioning of development	Protect places, features, buildings and landscapes of cultural, archaeological or architectural heritage
Landscape	L	Protect and enhance the landscape character	To implement the Plan's framework for identification, assessment, protection, management and planning of landscapes having regard to the European Landscape Convention

⁶ Please also refer to relevant legislation and requirements under Section 4.10, Section 8.5 and Appendix I. Targets under the national Climate Action Plan are reviewed and updated periodically.

Table 2.2 SEA Screening Analysis of Proposed Amendments⁷

Ref	SEA Screening Consideration
1	This amendment would further contribute towards provisions related to this sector/topic that are already contained within the Draft Plan. Considering the measures that have been already integrated into the Draft Plan and the existing Development Plans that provide for and contribute towards environmental protection, environmental management and sustainable development, it is determined that all potential effects arising from this Proposed Amendment: either are present already (beneficial) and will be further contributed towards; and/or will be mitigated so as not to be significant (adverse). Consequently, SEA is not required. Refer also to Table 2.3 and Section 2.5.
2	The update to terminology/language/wording/mapping would not change the effects arising from the Plan. As such, this amendment would not be considered as being likely to result in significant environmental effects. Consequently, SEA is not required.
3	This amendment relates to Plan text that sets the context for, summarises and/or provides clarification to Plan provisions. It does not interact with existing Plan provisions to an extent that it would have additional significant environmental effects. Consequently, SEA is not required.
4	This amendment adds more detail but would not have the potential to result in significant environmental effects. Consequently, SEA is not required.
5	This amendment provides consistency with other parts of the Plan and/or with the wider planning and policy framework. It would not interact with Plan provisions to the extent that it would have environmental effects. Consequently, SEA is not required.
6	Removal of this provision/text would remove the potential for any environmental effects; however, removal of the provision/text would not be likely to result in any environmental effects. Consequently, SEA is not required.

Table 2.3 Detail of effects, if unmitigated, mitigation measures for potential effects and residual adverse effects

Environmental Component	Environmental Effects, in combination with the wider planning framework Effects include in-combination effects that are planned for through the wider planning framework including the NPF and associated NDP, the Eastern and Midland RSES and Southern RSES, the Carlow and Laois County Development Plans and adjacent Development Plans and lower-tier land use plans.			Mitigation Measures	
	Significant Positive Effect, likely to occur	Potentially Significant Adverse Environmental Effects, if unmitigated	Likely Residual Adverse Non-Significant Effects	Draft Local Area Plan measures, including:	Existing Carlow and Laois County Development Plans measures, including:
Various – see below	Various – see below	Various – see below	Various – see below	<p>SO. 1: Encourage and support town centre led urban regeneration for Carlow-Graiguecullen, focusing on the appropriate redevelopment and reuse of key derelict, vacant and underutilised sites and buildings, the consolidation of the town through the use of brownfield, infill and backland sites, the conservation of historic building stock, and the implementation of streetscape and public realm improvements.</p> <p>SO. 2: Encourage and facilitate balanced economic development and employment opportunities in Carlow-Graiguecullen, ensuring a vibrant local economy that maximises business and investment opportunities and the existing economic attributes of the town, and supports the development of a diverse range of economic sectors.</p> <p>SO. 3: Improve the public realm and attractiveness of Carlow-Graiguecullen through the delivery of high-quality urban design outcomes, taking account of the need to respond to the social and physical characteristics of the existing built environment and those features that should be protected and/or enhanced by, and inform, new development.</p> <p>SO. 4: Prioritise integrated transport and land use, supported by investment in public transport, active travel networks and shared, low-carbon mobility options, which will improve people's travel choices and support safe, sustainable, and healthy lifestyles.</p> <p>SO. 5: Promote Carlow-Graiguecullen as a priority location for regional level community and social infrastructure and support the expansion and enhancement of existing community facilities, the provision of residential development, and a range of new community facilities in tandem with population growth to meet the needs of future residents in the joint urban area.</p> <p>SO. 6: Transition Carlow-Graiguecullen to a low-carbon and climate resilient town through a combination of effective mitigation and adaptation measures, in addition to maximising opportunities for energy efficiency, renewables, and decarbonisation.</p> <p>SO. 7: Manage the development of Carlow-Graiguecullen in a manner that protects, conserves, and enhances the natural and built heritage of the area.</p> <p>SO. 8: Support the development of, and investment in new and existing arts, culture and tourism infrastructure and amenities in Carlow-Graiguecullen.</p> <p>TD. P1: Support and facilitate the development of the tourism industry in Carlow-Graiguecullen with an emphasis on utilising and harnessing the potential of the natural and built heritage of the joint urban area, subject to compliance with normal planning and environmental criteria.</p> <p>TD. P7: Develop and maximise the tourism potential of Carlow-Graiguecullen by facilitating the appropriate expansion of existing facilities and the provision of new universally accessible and sustainable tourist attractions, facilities, and infrastructure in the joint urban area, while ensuring the protection of the environment and subject to compliance with normal planning and environmental criteria.</p> <p>TD. P12: Facilitate, where appropriate, increased access to the River Barrow and Burren River, subject to compliance with normal planning and environmental criteria.</p> <p>TD. P16: Encourage and support an improved night-time economy</p>	<p>Carlow County Development Plan Strategic Environmental Assessment SEA P1: Implement the monitoring programme as set out in the SEA Environmental Report and Statement, in conjunction with the Regional Assembly and other sources as relevant. This will include the preparation of standalone SEA Monitoring Reports to accompany:</p> <p>a) The report required of the Chief Executive under section 15(2) of the Act, including information in relation to progress on, and the results of, monitoring the significant environmental effects of implementation of the development plan;</p> <p>b) In advance of the beginning of the review of the next County Development Plan (2028 – 2032) on the significant environmental effects of implementing this Plan.</p> <p>Sustainable Development Goals - Policy SDG P1: Contribute, as practicable, via this Plan, towards achievement of the 17 Sustainable Development Goals of the United Nations' 2030 Agenda for Sustainable Development.</p> <p>Ecosystems Services Approach and Natural Capital Ecosystems – Policies It is the policy of the Council to:</p> <p>ES P1: Promote an Ecosystem Services Approach in the preparation of lower-level Plans, Strategies and Development Management.</p> <p>Rural Housing Siting and Design - Policies RH P6: Ensure, in addition to the requirement to comply with the rural housing policy criteria, that applicants demonstrate compliance with all normal siting and design requirements. The siting, layout and design of a new rural house shall appropriately integrate with its physical surroundings, including the natural and built heritage of the area, taking account of:</p> <p>(i) The Rural Housing Design Guidelines in Chapter 13. (ii) The character, sensitivity and capacity of the County's landscape as detailed in Chapter 9. (iii) The capacity of the area to absorb further development, taking account of the extent of existing development in the area, the extent of ribbon development in the area, the degree of existing haphazard or piecemeal development in the area, and the degree of development on a single original landholding. (iv) The protection and preservation of features in the landscape that contribute to local distinctiveness, attractiveness, and ecology, and which can assist in visually absorbing rural housing into its countryside. These features include hedgerows, trees, sod/stone banks and stone walls, historic and archaeological landscapes, water bodies, ridges, skylines, topographical features and important views and prospects. Recessed development located / set back into the landscape away from the public road may be considered where the siting is appropriate to the rural context and provides for the protection of environmental, visual and residential amenities. (v) The ability to provide a safe vehicular entrance in accordance with Transport Infrastructure Ireland publications (Refer Section 16.10.7) and without the need to remove an extensive amount of hedgerow or trees to achieve sightlines. (vi) The ability of a site to accommodate an on-site wastewater treatment system in compliance with the EPA Code of compliance with the 2021 EPA Code of Practice for Wastewater Treatment and Disposal Systems Serving Single Houses p.e. ≤ 10. (vii) The ability of a site to accommodate an appropriate on-site surface water management system in accordance with Carlow County Council SuDS Policy, and the 'SuDS Manual' CIRIA C753. (viii) The need to comply with the requirements of The Planning System and Flood Risk Management Guidelines for Planning Authorities DoEHLG and OPW (2009). (ix) The need to comply with the Spatial Planning and National Roads Guidelines for Planning Authorities DECLG (2012).</p> <p>Section 5.9 "Infrastructural Improvement Process" New roads and other transport infrastructure projects (including greenways, blueways and cycleways) referred to by this Plan that are not already provided for by plans/ programmes other than the County Development Plan or are not already permitted, are subject to the undertaking of feasibility assessment, taking into account planning need, environmental sensitivities as identified in the SEA Environmental Report and the objectives of the Plan relating to sustainable mobility. Where feasibility is established, a Corridor and Route Selection Process will be undertaken where appropriate, for relevant new road infrastructure in two stages: Stage 1 – Route Corridor Identification, Evaluation and Selection</p> <p>• Environmental constraints (including those identified in Section 4 of the SEA Environmental Report) and</p>

Screening for SEA Report for Proposed Amendments

					<p>in Carlow-Graigucullen through the increased use of existing and temporary spaces for Culture, Arts and Entertainment uses including through extended opening hours for existing attractions, subject to compliance with normal planning and environmental criteria.</p> <p>WW. P1: Facilitate and support Uisce Éireann in the delivery of public wastewater services in Carlow-Graigucullen to serve the needs of the existing and future population of the Plan area, subject to compliance with normal planning and environmental criteria and the standards and requirements set out in EU and national legislation and guidance.</p> <p>HF. P1: Support the Health Service Executive (HSE) and other statutory, private, and voluntary operators in the provision of new and improved healthcare facilities and services at appropriate locations in Carlow-Graigucullen and subject to compliance with normal planning and environmental criteria.</p> <p>GI. P1: Protect and enhance the biodiversity and ecological function of the green infrastructure network in Carlow-Graigucullen.</p> <p>GI. P2: Identify, protect, maintain, and enhance existing and planned green infrastructure assets in Carlow-Graigucullen, and recognise the wide range of environmental, social, and economic benefits of green spaces and nature-based solutions by ensuring the integration of green infrastructure planning and development in the planning process. GI. P3: Protect and preserve landscape features which significantly contribute to green infrastructure in Carlow-Graigucullen, including trees, hedgerows, woodlands, wetlands, watercourses, and other habitats.</p> <p>GI. P4: Require the protection and integration of new and existing green infrastructure as an essential component of all new developments in Carlow-Graigucullen, and to ensure future development does not fragment, damage, or prejudice the integrity of the green infrastructure network in the joint urban area.</p> <p>GI. P5: Ensure the green infrastructure and habitat features identified on Map 10.3, Network of Existing Green Infrastructure in Carlow-Graigucullen, and the linkages between them and surrounding rural areas, are integrated into the design of new developments as far as practicable.</p> <p>GI. P6: Require development proposals to include an outline of measures to protect the retained green infrastructure of a site during the period of construction. GI. P7: Require large scale development proposals in the joint urban area such as residential schemes, industrial development, or retail schemes, to submit a green infrastructure plan as an integral part of a planning application. GI. P8: Promote a network of pedestrian and cycle paths to enhance accessibility to the green infrastructure network in Carlow-Graigucullen, while ensuring that the layout, design, and operation of the routes responds to the ecological protection needs of each site. GI. P9: Incorporate elements of green infrastructure into existing areas of hard infrastructure in the joint urban area, where possible, thereby integrating these areas of the existing urban environment into the overall green infrastructure network.</p> <p>GI. P10: Promote appropriate tree planting and pollinator friendly planting, in accordance with the recommendations of the All-Ireland Pollinator Plan 2021-2025 throughout Carlow-Graigucullen and in open spaces within new developments, in order to enhance local biodiversity, visual amenity and surface water management.</p> <p>GI. P11: Ensure that green areas and open spaces associated with new residential developments and other relevant projects provide multifunctional benefits that enrich quality of life for local communities, ecologically rich areas that enhance biodiversity, and sustainable water management.</p> <p>GI. P12: Take account of Inland Fisheries guidance 'Planning for Watercourses in the Urban Environment, A Guide to the Protection of Watercourses through the use of Buffer Zones, Sustainable Drainage Systems, Instream Rehabilitation, Climate/Flood Risk and Recreational Planning' (2020) when considering development proposals in the vicinity of rivers and streams in Carlow-</p>	<p>opportunities (such as existing linear infrastructure) will assist in the identification of possible route corridor options;</p> <ul style="list-style-type: none"> • Potentially feasible corridors within which infrastructure could be accommodated will be identified and these corridors assessed. The selection of the preferred route corridor will avoid constraints and meet opportunities to the optimum extent, as advised by the relevant specialists; and • In addition to the constraints identified above, site-specific field data may be required to identify the most appropriate corridors. <p>Stage 2 – Route Identification, Evaluation and Selection</p> <ul style="list-style-type: none"> • Potentially feasible routes within the preferred corridor will be identified and assessed. The selection of preferred routes will avoid constraints and meet opportunities to the optimum extent, as advised by the relevant specialists, taking into account project level information and potential mitigation measures that are readily achievable; • In addition to the constraints identified above, site specific field data may be required to identify the most appropriate routes; and • In addition to environmental considerations, the identification of route corridors and the refinement of route lines is likely to be informed by other considerations. <p>Forestry – Policies</p> <p>FR P1: Encourage the development of a well-managed sustainable forestry sector with a diversity of species including native hardwood species, which maximises its contribution to the economic and social wellbeing of the county and which is;</p> <ul style="list-style-type: none"> - compatible with the protection of the environment including the avoidance of likely significant effects on Natura 2000 sites. - which does not detract substantially from landscape and visual amenity, protected or scenic views, , built heritage, archaeological / geological features, or cause pollution or degradation to wildlife habitats, natural waters or areas of ecological importance; - which does not obstruct existing public rights of way, traditional walking routes or recreational and tourism amenities and - which is planted, managed and harvested in accordance with the Forest Service Guidelines for Landscape, Forest Harvesting and Environmental, Archaeology, Biodiversity, Water Quality and requirements regarding the protection of the Freshwater Pearl Mussel. <p>Extractive Industry - Aggregates (stone, sand and gravel) and Mineral Resources - Policies</p> <p>EI P6: To ensure that development for aggregates / mineral extraction, processing and associated processes does not significantly impact the following:</p> <ul style="list-style-type: none"> - Existing and proposed European Sites; - Other areas of importance for the conservation of flora and fauna; - Areas of significant archaeological potential including recorded monuments; - Important aquifers and sensitive groundwater resources; - Sensitive landscapes; and - Established rights of way. <p>It is an objective of the Council to:</p> <p>EI O1: Support RSES policy for the adequate supply of aggregate and mineral resources to ensure the continued growth of the county and region and to ensure that all quarrying activities and projects associated with extractive industry comply with all relevant Planning and Environmental Legislation.</p> <p>EI O2: Consult with the Geological Survey of Ireland (GSI) with regard to any developments likely to have an impact on Sites of Geological Importance listed in Chapter 10 of this Plan..</p> <p>Section 16.11.10 Undergrounding Cables</p> <p>Where undergrounding of cables is being pursued, proposals should demonstrate that environmental impacts including the following are minimised:</p> <ul style="list-style-type: none"> • Habitat loss as a result of removal of field boundaries and hedgerows (right of way preparation) followed by topsoil stripping (to ensure machinery does not destroy soil structure and drainage properties); • Short to medium term impacts on the landscape where, for example, hedgerows are encountered; • Impacts on underground archaeology; • Impacts on soil structure and drainage; and • Impacts on surface waters as a result of sedimentation. <p>Section 16.11.5 Construction and Environmental Management Plans</p> <p>Construction Environment Management Plans shall be a requirement of any major planning permission for residential, community, employment or infrastructure related development and implemented throughout the construction / operational period as appropriate. The Plan shall be prepared having regard to the EPA Best Practice Guidelines for the preparation of Resource Management Plans for Construction and Demolition Waste Projects. Such plans shall incorporate relevant mitigation measures which have been integrated into the plan / project and where relevant any Environmental Impact Assessment or Appropriate Assessment.</p> <p>CEMPs typically provide details of intended construction practice for the proposed development, including:</p> <ol style="list-style-type: none"> a) location of the sites and materials compound(s) including area(s) identified for the storage of construction refuse; b) location of areas for construction site offices and staff facilities; c) details of site security fencing and hoardings; d) details of on-site car parking facilities for site workers during the course of construction; e) details of the timing and routing of construction traffic to and from the construction site and associated directional signage; f) measures to obviate queuing of construction traffic on the adjoining road network; g) measures to prevent the spillage or deposit of clay, rubble or other debris;

					<p>identified in the SEA Environmental Report and the objectives of the Plan relating to sustainable mobility. A Corridor and Route Selection Process will be undertaken where appropriate, for relevant new road infrastructure in two stages:</p> <ul style="list-style-type: none"> • Stage 1 – Route Corridor Identification, Evaluation and Selection; and • Stage 2 – Route Identification, Evaluation and Selection.
<p>Biodiversity and Flora and Fauna</p>	<ul style="list-style-type: none"> • Contribution towards protection of ecology (including designated sites, ecological connectivity, habitats) by facilitating development of lands (including those within and adjacent to the town's core areas) that have relatively low levels of environmental sensitivities and are served (or can be more easily served) by infrastructure and services, thereby helping to avoid the need to develop more sensitive, less well-served lands elsewhere in the Plan area and beyond. • Contribution towards the maintenance of existing green infrastructure and associated ecosystem services, listed species, ecological connectivity and non-designated habitats. • Contribution towards protection and/or maintenance of biodiversity and flora and fauna by contributing towards the protection of natural capital including the environmental vectors of air, water and soil. Biodiversity and flora and fauna includes biodiversity in designated sites (including European Sites and Wildlife Sites) and Annexed habitats and species (including birds and bats), listed/protected species, ecological connectivity and non-designated habitats (including terrestrial and aquatic habitats), and disturbance to biodiversity and flora and fauna – including terrestrial and aquatic biodiversity and flora and fauna. • Sustains existing 	<p>Arising from both construction and operation of development and associated infrastructure:</p> <ul style="list-style-type: none"> • Loss of/damage to biodiversity in designated sites (including European Sites and Wildlife Sites) and Annexed habitats and species, listed species, ecological connectivity and non-designated habitats; and disturbance to biodiversity and flora and fauna; • Habitat loss, fragmentation and deterioration, including patch size and edge effects; and • Disturbance (e.g. due to noise and lighting along transport corridors) and displacement of protected species such as birds (e.g. swifts) and bats. 	<ul style="list-style-type: none"> • Loss of an extent of non-protected habitats and species arising from the replacement of semi-natural land covers with artificial surfaces. • Losses or damage to ecology (these would be in compliance with relevant legislation). 	<p>NH. P1: Protect, manage, and enhance the natural heritage, biodiversity, landscape, and environment of Carlow-Graiguecullen in recognition of its importance as a non-renewable resource, a unique identifier, as a natural resource, an ecosystem services asset that can contribute towards sustainable urban drainage, flood management, and climate action.</p> <p>NH. P2: Support the conservation and enhancement of the River Barrow and River Nore SAC, and to protect the SAC from any plans and projects that are likely to have a significant effect on the coherence or integrity of the designated site, in accordance with relevant EU environmental directives and applicable national legislation, policies, plans and guidelines.</p> <p>NH. P3: Ensure that Appropriate Assessment Screening, and if required Appropriate Assessment, is carried out in respect of plans and projects in Carlow-Graiguecullen. Where likely significant effects have been identified in respect of any plan or project not directly connected with or necessary to the management of the River Barrow and River Nore SAC, either individually or in combination with other plans or projects, ensure Appropriate Assessment in accordance with Article 6(3) of the EU Habitats Directive. Carlow County Council and Laois County Council shall only agree to the plan or project after having ascertained that it will not adversely affect the integrity of the SAC, unless the plan or project is subject to the provisions of Article 6(4) of the Habitats Directive.</p> <p>NH. P4: Contribute towards the protection, from significant adverse effects, of the ecological integrity, and the visual, recreational, environmental and amenity value of the Oak Park proposed Natural Heritage Area (pNHA) and associated habitats.</p> <p>NH. P5: Promote the carrying out of ecological/habitat assessments to inform the layout and design of development proposals and ensure they integrate the protection and enhancement of biodiversity and landscape features wherever possible in Carlow-Graiguecullen, by minimising adverse impacts on existing habitats (whether designated or not) and by including mitigation and/or compensation measures, as appropriate. NH. P6: Promote increased understanding and awareness of the natural heritage and biodiversity located in the joint urban area of Carlow-Graiguecullen.</p> <p>NH. P7: Promote development for recreation and educational purposes that does not conflict with maintaining the favourable conservation status of the River Barrow and River Nore SAC and Oak Park pNHA, including the achievement of their conservation objectives. NH. P8: Promote, protect, and enhance sustainable and appropriate access to natural heritage in Carlow-Graiguecullen.</p> <p>NH. P9: Identify, protect, conserve, and enhance wherever possible, wildlife habitats and species of local importance in Carlow-Graiguecullen, not otherwise protected by legislation. Such habitats can include woodland, river, wetlands, and grassland areas along with field boundaries (hedgerows, stone walls and ditches). These features form part of a network of habitats and corridors, which allow wildlife to exist and flourish and contribute to compliance with Article 10 of the Habitats Directive</p> <p>NH. P10: Protect and enhance the natural environment of Carlow-Graiguecullen and recognise the important role of the natural heritage in the area through its diversity, quality, and integrity, and in terms of enhancing the image of the joint urban area and contributing to quality of life and wellbeing, economic growth, tourism and recreation.</p> <p>NH. P11: Ensure that lighting proposals along water courses, rivers, and streams in the joint urban area, are not in conflict with bat species, and to ensure that expert advice is sought on such lighting proposals in order to mitigate the impacts of lighting on bats and other species and habitats.</p>	<p>Carlow County Development Plan</p> <p>Light Pollution - Policies</p> <p>It is the policy of the Council to;</p> <p>LP P1: Ensure that the design of external lighting schemes minimises the incidence of light spillage or pollution in the immediate surrounding environment and has due regard to the residential amenity of surrounding areas and the need to mitigate adverse impacts on sensitive fauna and protected species.</p> <p>LP P2: Require the use of energy efficient lighting in all new development proposals.</p> <p>LP P3: Seek to ensure that the use of energy efficient (LED) lighting, both in relation to planning applications and local authority projects, minimises any significant adverse effects on biodiversity with the use of appropriate lighting in sensitive areas.</p> <p>Natural Heritage - Policies and Objectives</p> <p>NH P1: Protect, manage and enhance the natural heritage, biodiversity, landscape and environment of County Carlow in recognition of its importance as a non-renewable resource, a unique identifier, and as a natural resource asset.</p> <p>NH P2: Ensure, as far as is practicable, that development does not adversely impact on wildlife habitats and species, and that biodiversity is conserved for the benefit of future generations in the interests of sustainability. This will include moving towards no net loss of biodiversity from plans adopted by and projects granted permission/authorised by the Council.</p> <p>NH P3: Support and co-operate with statutory authorities such as the National Parks and Wildlife Service (NPWS) and others on measures to manage designated nature conservation sites in order to achieve their conservation objectives. Specific regard shall be had to conservation objectives and conservation management plans where they exist for designated nature conservation sites.</p> <p>NH P4: Promote increased understanding and awareness of the natural heritage and biodiversity of the county.</p> <p>NH P5: Recognise that nature conservation is not just confined to designated sites and acknowledge the need to protect non-designated biodiversity, habitats and species not otherwise protected by legislation.</p> <p>NH P6: Protect and enhance the natural environment of County Carlow and recognise the important role of the natural heritage through its diversity, quality and integrity, in terms of enhancing the image of the County and contributing to quality of life, economic growth, tourism and recreation.</p> <p>NH P7: Promote development for recreation and educational purposes that does not conflict with maintaining the favourable conservation status of designated natural heritage sites, including the achievement of their conservation objectives.</p> <p>NH P8: Promote, protect and enhance sustainable and appropriate access to the natural heritage of the county.</p> <p>NH P9: To promote the carrying out of ecological/habitat assessments to inform the layout and design of development proposals and ensure they integrate the protection and enhancement of biodiversity and landscape features wherever possible, by minimising adverse impacts on existing habitats (whether designated or not) and by including mitigation and/or compensation measures, as appropriate.</p> <p>NHO 1: Implement relevant actions from the National Biodiversity Action Plan 2017-2021 (and any superseding plan) and to prepare a County Heritage Plan and Biodiversity Action Plan during the lifetime of this County Development Plan in accordance with RPO 126 in the RSES, to ensure the protection and appreciation of heritage and nature at local level including recognition of rich biodiversity of designation of existing special areas of conservation i.e. Blackstairs Mountains, Slaney River Valley and River Barrow and River Nore SAC.</p> <p>NS P1: Support the conservation and enhancement of Natura 2000 Sites, and to protect the Natura 2000 network from any plans and projects that are likely to have a significant effect on the coherence or integrity of a Natura 2000 Site, in accordance with relevant EU Environmental Directives and applicable National Legislation, Policies, Plans and Guidelines.</p> <p>NS P2: Screening for Appropriate Assessment and if required Appropriate Assessment is undertaken for all plans to be adopted and projects to be granted permission/authorised by the Council. Where likely significant effects have been identified in respect of any plan or project not directly connected with or necessary to the management of a Natura 2000 site, either individually or in combination with other plans or projects, ensure appropriate assessment, in accordance with Article 6(3) of the Habitats Directive. The Council shall only agree to the plan or project after having ascertained that it will not adversely affect the integrity of the site concerned, unless the plan or project is subject to the provisions of Article 6(4) of the Habitats Directive.</p> <p>NS P3: Consider impacts within a plan or project's zone of influence, which may include Natura 2000 sites outside the County, when assessing whether a plan or project is likely to have significant effects on Natura 2000 sites.</p> <p>NS P4: Maintain or restore the favourable conservation status of County's Natura 2000 sites qualifying interest habitats and species.</p> <p>NS O1: Strictly protect areas designated or proposed to be designated as Natura 2000 sites, including any areas that may be proposed for designation or designated during the period of this Plan.</p> <p>NHA P1: Contribute towards the protection, from significant adverse effects, of the ecological integrity and the visual, recreational, environmental and amenity value of the County's proposed Natural Heritage Areas (pNHAs) and associated habitats, including any designated Natural Heritage Areas (NHAs) during the lifetime of this Plan.</p>

Screening for SEA Report for Proposed Amendments

	<p>sustainable rural management practices – and the communities who support them – to ensure the continuation of long-established managed landscapes and the flora and fauna that they contain.</p>				<p>NHA P2: Ensure that development proposals within or adjacent to a proposed Natural Heritage Area (pNHA) or Natural Heritage Area (NHA) are designed and sited to minimise significant impacts on the biodiversity (including net loss) and ecological, geological and landscape value of the site, particularly plant and animal species listed under the Wildlife Act 1976 (as amended), the Habitats Directive and the Birds Directive, including their habitats.</p> <p>NHA P3: Restrict development within a proposed Natural Heritage Area (pNHA) or Natural Heritage Area (NHA) to development that is directly related to the area's amenity potential or development that is required for the conservation management of these sites, subject to the protection and enhancement of natural heritage and visual amenities including biodiversity and landscapes.</p> <p>NHA P4: To consult with the National Parks and Wildlife Service (NPWS) and other appropriate prescribed bodies when assessing development proposals affecting proposed Natural Heritage Areas (pNHAs) and Natural Heritage Areas (NHA).</p> <p>ND P1: Conserve the existing flora, fauna and wildlife habitats in the County, including rare and threatened plant, animal and bird species, through the preservation of ecological corridors and ecological networks.</p> <p>ND P2: Ensure that development does not have a significant adverse effect on rare and threatened species, their breeding places, resting places, habitat or environment, as applicable, including those protected under the Wildlife Acts 1976 to 2021, the Birds Directive (2009/147/EC), the Habitats Directive (92/43/EEC) and including plant species listed on the Flora (Protection) Order 2015 (S.I. No. 356 of 2015).</p> <p>ND P3: Require the submission of an Ecological Impact Assessment, where deemed necessary, for any development proposal likely to have a significant impact on existing flora, fauna and wildlife habitats, including rare and threatened plant, animal and bird species.</p> <p>ND P4: Ensure that, where evidence exists of species that are protected under the Wildlife Act 1976 (as amended), the Bird Directive 1979, and the Habitats Directive 1992, appropriate avoidance and mitigation measures are incorporated into development proposals as part of any ecological impact assessment. In the event of a proposed development impact on a site known to be a breeding or resting site of species listed in the Habitats Regulations or the Wildlife Act 1976 (as amended) a derogation licence, issued by the Department of Housing, Local Government and Heritage, may be required.</p> <p>ND P5: Consult with the National Parks and Wildlife Service (NPWS) and take account of any licensing requirements when undertaking, approving and authorising development which is likely to affect plant, animal or bird species protected by law.</p> <p>ND P6: Ensure that the management of the Council's open spaces and parks is pollinator-friendly and provides more opportunities for biodiversity, supporting the objectives of the National Pollinator Plan 2021-2025. Where it is used, herbicide should be certified and applied as per the manufacturer's instructions.</p> <p>ND P7: Support the implementation of the All Ireland Pollinator Plan 2021-2025 and to incorporate actions as appropriate into a Biodiversity Plan for County Carlow providing more opportunities for biodiversity in accordance with RPO 128.</p> <p>ND P8: That biodiversity data generated during the lifetime of this Development Plan for the preparation of environmental assessment reports, shall be made available to the National Biodiversity Data Centre (NBDC).</p> <p>WT P1: Protect and manage existing woodlands, trees and hedgerow which are of amenity or biodiversity value and/or contribute to landscape character and ensure that proper provision is made for their consideration, protection and management when undertaking, approving or authorising development.</p> <p>WT P2: Ensure that hedgerow removal to facilitate development is kept to an absolute minimum and, where unavoidable, a requirement for mitigation planting will be required comprising a hedge of similar length and species composition to the original, established as close as is practicable to the original and where possible linking in to existing adjacent hedges. Native plants of a local provenance should be used for any such planting.</p> <p>WT P3: Adhere to the provisions of the Wildlife Act 1976 (as amended) in prohibiting the cutting of hedges during the bird nesting season (1st March to 31st August), except in certain legally defined circumstances.</p> <p>WT P4: Encourage the protection of historic hedgerows or significant hedgerows which serve to link habitat areas to each other and the surrounding countryside.</p> <p>WT P5: Recognise the biodiversity and archaeological importance of townland boundaries, including hedgerows, and promote their protection and retention.</p> <p>WT P6: Protect individual or groups of trees which are important for environmental, recreational, historical, biodiversity and/or aesthetic reasons or by reason of contribution to sense of place, and to discourage the felling of mature trees to facilitate development.</p> <p>WT P7: To contribute towards the protection where possible of the trees which are considered to be an important component of demesne landscapes.</p> <p>WT P8: Ensure a Tree Management Plan is provided so as existing tree planting is adequately protected during development and incorporated into the layout and design of new developments.</p> <p>WT O1: Promote the Native Woodland and Neighbourhood schemes and other initiatives that aim to establish and enhance woodlands for recreational and wildlife benefits.</p> <p>IW P1: Protect the biodiversity of rivers, streams and other watercourses, to maintain them in an open state, to discourage culverting or realignment, and where possible, uncover existing culverts and restore the watercourses to acceptable ecological standards and for the passage of fish.</p> <p>IW P2: Ensure that the County's watercourses are retained for their biodiversity and flood protection values and to conserve and enhance where possible, the wildlife habitats of the County's rivers, streams and riparian zones, including those which occur outside of designated areas, in order to provide a network of habitats and biodiversity corridors throughout the County.</p> <p>IW P3: Control the encroachment of development on watercourses and riparian zones and provide for protection measures to watercourses and their banks, including but not limited to: the prevention of pollution of the watercourse, the protection of the river bank from erosion, the retention and/or provision of wildlife corridors and</p>

					<p>the protection from light spill in sensitive locations, including during construction of permitted development.</p> <p>IW P4: Require the submission of an Ecological Impact Assessment, where deemed necessary (and where necessary an Appropriate Assessment where in relation to Natura 2000 sites), including bat and otter surveys, for development proposals along rivers, streams and canal corridors and areas of ecological importance.</p> <p>IW P5: Maintain a biodiversity protection (buffer) zone of not less than 10 metres from the top bank of all watercourses in the County, with the full extent of the protection zone to be determined on a case by case basis by the Planning Authority, based on site specific characteristics and sensitivities and consultation with Inland Fisheries Ireland.</p> <p>IW P6: Ensure that lighting proposals along water courses, rivers, streams and canal corridors, are not in conflict with bat species, and to ensure that expert advice is sought on such lighting proposals in order to mitigate the impacts of lighting on bats and other species.</p> <p>IW P7: Require that runoff from a development area will not result in deterioration of downstream watercourses or habitats, and that pollution generated by a development is treated within the developed area prior to discharge to local watercourses.</p> <p>IW P8: Ensure the protection, improvement or restoration of riverine floodplains and to promote strategic measures to accommodate flooding at appropriate locations, to protect ground and surface water quality and build resilience to climate change.</p> <p>IW P9: Ensure that development proposals do not adversely affect groundwater resources and groundwater dependent habitats and species.</p> <p>IW P10: Consult with Inland Fisheries Ireland, as appropriate, in relation to any works or development that could have potential impacts on watercourses, aquatic habitats, species, and associated riparian habitats, and to take full account of any Guidance documents issued by Inland Fisheries Ireland in this regard, including 'Planning for Watercourses in the Urban Environment, A Guide to the Protection of Watercourses through the use of Buffer Zones, Sustainable Drainage Systems, Instream Rehabilitation, Climate/Flood Risk and Recreational Planning' (2020).</p> <p>IW P11: Promote the use of watercourses for the pursuit of angling, through working with Inland Fisheries Ireland to improve water quality, to improve fish stocks and to provide safe access to fishing, where appropriate, taking full account of the requirements of the Habitats Directive and other relevant legislation.</p> <p>IW P12: Promote the natural, historical and amenity value of the County's watercourses, including public access where feasible and appropriate, in partnership with the National Parks and Wildlife Services, Waterways Ireland, Inland Fisheries Ireland, and other relevant stakeholders, while maintaining the watercourses free from inappropriate development.</p> <p>WT P1: Protect, manage, and enhance wetlands in the County, and resist development that would remove, fragment, or degrade wetlands.</p> <p>WT P2: Protect the biodiversity and flood protection value of wetlands and floodplains in the County.</p> <p>WT P3: Ensure that ecological impact assessment is carried out, where appropriate, for development proposals involving, drainage, reclamation, or infill of wetland areas.</p> <p>WT P4: To promote voluntary construction of new wet lands where deemed in accordance with proper planning and environmental considerations and where same maybe facilitated by ecological schemes.</p> <p>IW O1: Carry out a Wetlands Survey of the County during the lifetime of this Plan.</p> <p>IS P1: Prevent the spread of invasive alien species in the County, and to require landowners and developers to adhere to best practice guidance in relation to the containment and control of invasive alien species, including Invasive Species Ireland guidelines (see www.invasivespeciesireland.com)</p> <p>TII (2020) The Management of Invasive Alien Plant Species on National Roads – Standard GE-ENV-01104-01.pdf https://www.tipublications.ie/library/GE-ENV-01104-01.pdf</p> <p>TII (2020) The Management of Invasive Alien Plant Species on National Roads – Technical Guidance https://www.tipublications.ie/library/GE-ENV-01105-01.pdf</p> <p>IS P2: To require, as appropriate, development proposals to address the presence or absence of invasive alien species, and to require the preparation of an Invasive Species Management Plan for their eradication and/or containment and control where identified on a site or in the vicinity of a site, in accordance with the requirements of the European Communities (Birds and Natural Habitats) Regulations 2011-2015.</p> <p>IS P3: Prohibit invasive alien plant species from inclusion in landscape design proposals and to require the use of native local plant species.</p> <p>IS O1: Prepare an Invasive Alien Species Management Strategy, in conjunction with a Hedge and Road Verge Maintenance Strategy, during the lifetime of this Plan.</p> <p>IS O2: To raise awareness of the potential threat of invasive alien species in the County, and to inform the public of appropriate management measures for the prevention, containment, and control of invasive alien species.</p> <p>IS O3: Undertake a programme of mapping of invasive alien species in the County and initiate control programs with relevant stakeholders and landowners on the prevention, containment and control of invasive alien species.</p> <p>Agriculture – Policies</p> <p>AG P2: Support and facilitate changes to farming practices that will adapt to climate change and a more sustainable sector, that encourage biodiversity and contribute to more sustainable methods of production.</p> <p>AG P3: Encourage the development of environmentally sustainable agricultural practices, to ensure that development does not impinge on the visual amenity of the countryside and that watercourses, wildlife habitats and areas of ecological importance are protected from the threat of pollution.</p> <p>AG P4: Ensure that all agricultural activities comply with legislation on water quality, such as the Phosphorous Regulations, Water Framework Directive and Nitrates Directive. In relation to intensive agricultural installations (i.e. intensive pig and poultry farming), recent EPA Guidance (2021) on Assessment of the Impact of Ammonia and</p>

Screening for SEA Report for Proposed Amendments

					<p>ES 31 New developments which include on-site wastewater treatment in an Extreme Vulnerability Inner Source Protection Area shall be restricted to the following categories:</p> <p>a) A dwelling for a full-time farmer;</p> <p>b) An existing inhabited dwelling in need of replacement;</p> <p>c) A second family dwelling on a farm where this is required for management of the farm</p> <p>Permission may be granted in the above instances subject to the following stipulations:</p> <p>a) That an alternative site outside the Extreme vulnerability Inner Protection Area is not available</p> <p>b) The existing water quality of the source is not subject to any significant nitrate and /or microbiological contamination</p> <p>c) The existing water quality of the groundwater source is in compliance with the environmental objectives set out in relevant River Basin District Management Plan.</p> <p>ES 32 Control intensive agriculture development e.g. intensive pig unit productions in order to minimise their impact on soil and ground water quality.</p> <p>Developments involving intensive pig units shall be required to show compliance with the following requirements:</p> <p>a) The developer shall demonstrate that all lands available are suitable for landspreading of manures and have satisfactory Nutrient Management Plans for such lands</p> <p>b) Satisfactory arrangements for storage, management and spreading of slurries are provided.</p> <p>ES 33 Encourage the use of catchment-sensitive farming practices, in order to meet Water Framework Directive targets, European Union (Good Agricultural Practice for Protection of Waters) Regulations 2017, as amended and comply with the relevant River Basin Management Plan.</p> <p>ES 34 Consult as necessary with other competent authorities with responsibility for environmental management</p> <p>ES 35 To work in co-operation with relevant organisations and major stakeholders, to ensure a co-ordinated approach to the protection and improvement of the county's water resources</p> <p>ES 36 Ensure that developments that may adversely affect water quality will not proceed unless mitigation measures are employed, such as settlements ponds, interceptors etc</p> <p>ES 37 Promote public awareness of water quality issues and the measures required to protect both surface water and groundwater bodies</p> <p>Flood Risk Management Policy Objectives</p> <p>FRM 1 Ensure that flood risk management is incorporated into the preparation of all local area plans through the preparation in accordance with the requirements of the Planning System and Flood Risk Management-Guidelines for Planning Authorities (DoEHLG 2009)</p> <p>FRM 2 Ensure that all development proposals comply with the requirements of the Planning System and Flood Risk Management-Guidelines for Planning Authorities' (DEHLG 2009) and to ensure that the Justification Test for Development Management is applied to required development proposals and in accordance with methodology set out in the guidelines and new development does not increase flood risk elsewhere, including that which may arise from surface water runoff.</p> <p>FRM 3 Support the implementation of recommendations in the CFRAM Programme to ensure that flood risk management policies and infrastructure are progressively implemented.</p> <p>FRM 4 Support the implementation of recommendations in the Flood Risk Management Plans (FRMP's), including planned investment measures for managing and reducing flood risk.</p> <p>FRM 5 Consult with the OPW in relation to proposed developments in the vicinity of drainage channels and rivers for which the OPW are responsible, and to retain a strip on either side of such channels where required, to facilitate maintenance access thereto.</p> <p>FRM 6 Assist the OPW in developing catchment-based Flood Risk Management Plans for rivers in County Laois and have regard to their provisions/recommendations.</p> <p>FRM 7 Protect and enhance the County's floodplains and wetlands as 'green infrastructure' which provides space for storage and conveyance of floodwater, enabling flood risk to be more effectively managed and reducing the need to provide flood defenses in the future, subject to normal planning and environmental criteria.</p> <p>FRM 8 Protect the integrity of any formal (OPW or Laois County Council) flood risk management infrastructure, thereby ensuring that any new development does not negatively impact any existing defense infrastructure or compromise any proposed new infrastructure.</p> <p>FRM 9 Ensure that where flood risk management works take place that the natural and cultural heritage, rivers, streams and watercourses are protected and enhanced.</p> <p>FRM 10 Ensure each flood risk management activity is examined to determine actions required to embed and provide for effective climate change adaptation as set out in the OPW Climate Change Sectoral Adaptation Plan Flood Risk Management applicable at the time.</p> <p>FRM 11 Consult, where necessary, with Inland Fisheries Ireland, the National Parks and Wildlife Service and other relevant agencies in the provision of flood alleviation measures in the County.</p> <p>FRM 12 Prioritise plans for flood defence works in the towns as indicated in the Strategic Flood Risk Assessment in order to mitigate against potential flood risk;</p> <p>FRM 13 Ensure new development does not increase flood risk elsewhere, including that which may arise from surface water runoff;</p> <p>FRM 14 Protect water sinks because of their flood management function, as well as their biodiversity and amenity value and encourage the restoration or creation of water sinks as flood defence mechanisms, where appropriate</p> <p>Surface Water and Drainage Policy Objectives</p> <p>SWD 1 Support in conjunction with Irish Water the improvement of storm water infrastructure to improve sustainable drainage and reduce the risk of flooding in urban environments.</p> <p>SWD 2 Implement policies contained in the Greater Dublin Strategic Drainage Study (GSDSDS) in relation to</p>

Screening for SEA Report for Proposed Amendments

					<p>SUDS and climate change.</p> <p>SWD 3 Ensure new development is adequately serviced with surface water drainage infrastructure which meets the requirements of the Water Framework Directive, associated River Basin Management Plans and CFRAM Management Plans.</p> <p>SWD 4 Require that planning applications are accompanied by a comprehensive SUDS assessment that addresses run-off quantity, run-off quality and its impact on the existing habitat and water quality.</p> <p>SWD 5 Ensure that in public and private developments in urban areas, both within developments and within the public realm, seek to minimise and limit the extent of hard surfacing and paving and require the use of sustainable drainage techniques for new development or for extensions to existing developments, in order to reduce the potential impact of existing and predicted flooding risks.</p> <p>SWD 6 Ensure appropriate maintenance of surface water drainage infrastructure to avoid flood risk.</p> <p>SWD 7 Ensure that all storm water generated in a new development is disposed of on-site or is attenuated and treated prior to discharge to an approved storm water system;</p> <p>SWD 8 Promote storm water retention facilities for new developments and to incorporate design solutions that provide for collection and recycling of surface water in accordance with Sustainable Urban Drainage Systems as recommended in the Planning System and Flood Risk Management: Guidelines for Planning Authorities (DoEHLG, 2009) and Laois County Council's Roads and Drainage Standards, or as amended.</p>
<p>Material Assets</p>	<ul style="list-style-type: none"> Contribution towards appropriate provision of infrastructure and services to existing population and planned growth by facilitating compact development of lands (including those within and adjacent to the town's core areas) that are served (or can be more easily served) by infrastructure and services, thereby helping to avoid the need to develop less well-served lands elsewhere in the Plan area and beyond. Contribution towards compliance with national and regional water services and waste management policies. Contribution towards increase in renewable energy use by facilitating renewable energy and electricity transmission infrastructure developments. Contribution towards limits in increases in energy demand from the transport sector by facilitating sustainable compact growth. Contribution towards reductions in average energy consumption per capita including promoting sustainable compact growth, sustainable mobility, sustainable design and energy efficiency. 	<ul style="list-style-type: none"> Failure to provide adequate and appropriate waste water treatment (water services infrastructure and capacity ensures the mitigation of potential conflicts). Failure to adequately treat surface water run-off that is discharged to water bodies (water services infrastructure and capacity ensures the mitigation of potential conflicts). Failure to comply with drinking water regulations and serve new development with adequate drinking water (water services infrastructure and capacity ensures the mitigation of potential conflicts). Increases in waste levels. Potential impacts upon public assets and infrastructure. Interactions between agricultural waste and soil, 	<ul style="list-style-type: none"> Exceedance of capacity in critical infrastructure risks remain, including due to uncertainty with regard to climate – however, such risks will be mitigated by: measures, those requiring the timely provision of critical infrastructure, and compliance with the Water Framework Directive and associated River Basin Management Plan. Residual wastes to be disposed of in line with higher-level waste management policies. Any impacts upon public assets and infrastructure to comply with statutory planning/consent-granting framework. 	<p>ABTA. P1: Progress the delivery of the appropriate measures and interventions as outlined in the Carlow-Graiguecullen Area Based Transport Assessment (ABTA) on a phased basis and subject to the availability of funding, in order to support the shift towards sustainable travel and transport throughout the joint urban area and to accommodate anticipated transport demand due to planned population growth.</p> <p>WC. P1: Support and promote enhanced connectivity where appropriate for pedestrians and cyclists in Carlow-Graiguecullen in order to improve accessibility throughout the joint urban area and to the town centre, employment areas, residential areas, local schools and other educational facilities, recreational facilities, and public transport nodes.</p> <p>WC. P2: Ensure that all development where appropriate within Carlow-Graiguecullen provides for connectivity (pedestrian, cyclist and vehicular) to adjacent lands in accordance with the National Transport Authority's Permeability Best Practice Guide (2015) and any subsequent update to this Guide.</p> <p>WC. P3: Ensure all new development proposals are permeable for walking and cycling and seek the retrospective implementation of walking and cycling connections and facilities in existing neighbourhood, where feasible and appropriate, in order to support and encourage a shift to sustainable travel modes.</p> <p>WC. P4: Ensure that pedestrian and cycling infrastructure is based on principles of Universal Design, and that all footpaths in Carlow-Graiguecullen are accessible to all members of the community, including people with disabilities, the elderly, and people with young children.</p> <p>WC. P5: Provide adequate and secure bicycle parking facilities subject to demand analysis at appropriate locations in the joint urban area.</p> <p>WC. P6: Develop and promote in conjunction with local communities and relevant stakeholders in the joint urban area, short walking routes such as looped walks, heritage trails and Slí na Sláinte routes.</p> <p>W. O1: Support and facilitate the delivery of new and improved walking and cycling network in Carlow-Graiguecullen, which delivers permeability enhancements and connections where appropriate as identified in the Area Based Transport Assessment (ABTA) and in Figures 6.4 and 6.5, in conjunction with the National Transport Authority, other statutory agencies, and relevant stakeholders. Final design details shall be subject to appropriate environmental assessment and undergo a separate public consultation process where applicable.</p> <p>PT. P1: Promote the sustainable development of Carlow-Graiguecullen by actively engaging with and supporting relevant national transport agencies in their remit to deliver improvements to the public transport network/services for the joint urban area, including at Carlow Railway Station and Carlow Bus Park, and to ensure the provision of integrated public transport services that provide an attractive and convenient alternative to private car travel thereby reducing car dependency for travel purposes. PT.</p>	<p>Carlow County Development Plan Climate Action is provided for throughout the Plan, and is focused upon at Chapter 7 "Climate Action and Energy".</p> <p>Air Pollution - Policies</p> <p>AP P1: Promote the preservation of best ambient air quality compatible with sustainable development in accordance with the EU Ambient Air Quality and Cleaner Air for Europe (CAFE) Directive (2008/5/0/EC) and ensure that all air emissions associated with new developments are within Environmental Quality Standards set out in the Air Quality Standards Regulations 2011 (SI No. 180 of 2011) or any updated/ superseding documents.</p> <p>AP P2: Require activities likely to give rise to air emissions (not licenced under separate legislation) to implement measures to mitigate impacts and to undertake air quality monitoring.</p> <p>Noise Pollution - Policies</p> <p>NP P1: Have regard to the provisions of the Environmental Protection Agency (EPA) Acts 1992 and 2003 and the Environmental Protection Agency Act (Noise) Regulations 1994 or any amendments thereto when assessing planning applications.</p> <p>NP P2: Support and seek the implementation of the Carlow Noise Action Plan 2018 -2023 (and any revisions thereto during the life of this Plan).</p> <p>NP P3: Regulate and control activities likely to give rise to excessive noise, other than those activities which are regulated by the Environmental Protection Agency.</p> <p>NP P4: Ensure new development does not cause an unacceptable increase in noise levels affecting noise sensitive properties. Proposals for new development with the potential to create excessive noise will be required to submit a construction and/or operation management plan to control such emissions.</p> <p>Laois County Development Plan Climate Action is provided for throughout the Plan, and is focused upon at Chapter 3 "Climate Action and Energy".</p> <p>Air Quality Policy Objectives</p> <p>ES 38 Promote the preservation of best ambient air quality compatible with sustainable development in accordance with the EU Ambient Air Quality and Cleaner Air for Europe (CAFE) Directive (2008/50/EC) and ensure that all air emissions associated with new developments are within Environmental Quality Standards as out in the Air Quality Standards Regulations 2011 (SI No. 180 of 2011) (or any updated/superseding documents).</p> <p>ES 39 Encourage more sustainable modes of transport and a more balanced modal split to reduce carbon emissions</p> <p>ES 40 Encourage the use of appropriate mitigation measures, such as dust dampeners, chimney stack scrubbers, etc. to minimise the potential impacts of developments on air quality</p> <p>ES 41 Require developments of a certain nature to carry out assessments of the impact of the development on air quality</p> <p>ES 42 Ensure the implementation of the radon prevention measures for new homes as contained within the Building Regulations</p> <p>Noise Pollution Policy Objectives</p> <p>ES 42 Require an assessment of impact of the developments on noise levels, having regard to the provisions of the Environmental Protection Agency (EPA) Acts 1992 and 2003 and the EPA Noise Regulations 1994 when assessing planning applications</p> <p>ES 43 Support the implementation of the Noise Directive 2002/49/EC and associated Environmental Noise Regulations 2006</p> <p>ES 44 Ensure that relevant planning applications comply with the provisions of any Noise Action Plan or noise maps relating to the area.</p> <p>ES 45 Restrict development proposals causing noise pollution in excess of best practice standards</p> <p>ES 46 Regulate and control activities likely to give rise to excessive noise, other than those activities which are regulated by the EPA.</p> <p>ES 47 Ensure new development does not cause an unacceptable increase in noise levels affecting noise sensitive properties. Proposals for new development with the potential to create excessive noise will be required to submit a construction and/or operation management plan to control such emissions.</p> <p>ES 48 Require activities likely to give rise to excessive noise to install noise mitigation measures and monitors. The provision of a noise audit may be required where appropriate</p>

			<p>Graigucullen that seek to reduce carbon emissions, improve energy efficiency and conservation, enhance green infrastructure, and encourage awareness on climate change issues and impacts.</p> <p>CA. P3: Encourage innovation and facilitate the development of pilot schemes that support climate change mitigation and adaptation measures.</p> <p>CA. O1: Support, in conjunction with key stakeholders, the preparation and implementation of the Climate Action Plans for County Carlow and County Laois, and to facilitate their role as a driver in the mitigation of greenhouse gas emissions and climate change adaptation in Carlow-Graigucullen, and the translation of national climate policy to local and community levels in the joint urban area.</p> <p>CA. O2: Support and facilitate the role of the Carlow Town Decarbonisation Zone in the delivery of effective climate action at a local level, through interventions, projects, and actions aimed at reducing greenhouse gas emissions and increasing energy efficiency and conservation.</p> <p>CA. O3: Advocate for climate action by raising public awareness of climate change issues and responses.</p> <p>LU. P1: Secure climate resilience and a reduction of greenhouse gas emissions in Carlow-Graigucullen by actively implementing policies which support integrated land use planning and sustainable travel, and maximise such opportunities through development location, form, layout, and design.</p> <p>UR. P1: Secure climate resilience and a reduction of greenhouse gas emissions in Carlow-Graigucullen through encouragement and support for urban regeneration projects and interventions, including those set out in Project Carlow 2040 – A Vision for Regeneration.</p> <p>UR. P2: Support the effective and efficient use of land in Carlow-Graigucullen, prioritising compact growth in preference to greenfield land consumption, through the development and regeneration of vacant and underutilised brownfield/infill land and buildings within the existing built-up footprint of the joint urban area.</p> <p>UR. O1: Leverage all available funding streams which will support and deliver urban regeneration outcomes in Carlow-Graigucullen which seek to secure climate resilience and a reduction of greenhouse gas emissions in the joint urban area.</p> <p>RE. P1: Encourage and support a transition to renewable energy sources in Carlow-Graigucullen, subject to compliance with proper planning and environmental considerations.</p> <p>EE. P1: Encourage and promote the consideration of energy efficient and low-carbon design solutions and modern construction methods when carrying out pre-planning discussions for major residential, commercial, and industrial development in Carlow-Graigucullen.</p> <p>EE. P2: Encourage development proposals that are low carbon, well adapted to the impacts of climate change, include mitigation measures, and maximise energy efficiency through renewable energy sources, water conservation, SuDS, siting, layout and design.</p> <p>EE. P3: Promote the use of efficient energy storage systems and infrastructure that support energy efficiency and reusable energy system optimisation, subject to compliance with proper planning and environmental considerations.</p> <p>EE. P4: Support the use of blue roofs, green roofs, green walls, photovoltaic and/or solar thermal collector panels and heat pumps on new residential, commercial, industrial, and public buildings.</p> <p>EE. P5: Support and facilitate the installation of district heating systems as a decarbonising technology in new developments in Carlow-Graigucullen, subject to compliance with proper planning and environmental considerations. EE. P6: Promote the use of efficient energy storage systems and infrastructure in Carlow-Graigucullen that support energy efficiency and reusable energy system optimisation, subject to compliance with proper planning and environmental considerations.</p> <p>EE. O1: Support the implementation of national energy efficiency</p>

------------------------

2.5 Schedule 2A

PART 1

1. *The characteristics of the plan having regard, in particular, to: the degree to which the plan sets a framework for projects and other activities, either with regard to the location, nature, size and operating conditions or by allocating resources*

The Carlow-Graiguecullen Joint Urban Draft Local Area Plan 2024-2030 will provide a six-year framework for the sustainable development of Carlow-Graiguecullen, while considering the conservation and protection of the built and natural environment. It sets out an overall strategy for the proper planning and sustainable development of the town in terms of its social, cultural, economic and physical development and consists of a written statement supported by mapping and other appendices. The Amendments propose a number of text and map-based changes to the Draft Plan.

Taking the above and the examination of the Proposed Amendments provided under Sections 2.2 to 2.4 into account, arising from the degree to which the Proposed Amendments and the Draft Local Area Plan set a framework for projects and other activities, the Proposed Amendments would not be likely to result in significant environmental effects.

2. *The characteristics of the plan having regard, in particular, to: the degree to which the plan influences other plans, including those in a hierarchy*

The Carlow-Graiguecullen Joint Urban Draft Local Area Plan 2024-2030 has been guided by the National Planning Framework, the Regional Spatial and Economic Strategy for the Southern Region and the relevant Development Plans. In turn, the Plan will guide any lower-tier plans and future proposals for land use developments and activities. The Amendments are being proposed to the Draft Plan.

Taking the above and the examination of the Proposed Amendments provided under Sections 2.2 to 2.4 into account, arising from the degree to which the Proposed Amendments and the Draft Plan influence other plans, the Proposed Amendments would not be likely to result in significant environmental effects.

3. *The characteristics of the plan having regard, in particular, to: the relevance of the plan for the integration of environmental considerations in particular with a view to promoting sustainable development*

The Carlow-Graiguecullen Joint Urban Draft Local Area Plan 2024-2030, to which the Proposed Amendments relate, has undergone SEA. This process integrated environmental considerations into the Plan and found that the Plan contributes to environmental protection and management and sustainable development.

Taking the above and the examination of the Proposed Amendments provided under Sections 2.2 to 2.4 into account, arising from the degree to which the Proposed Amendments and the Draft Plan are relevant for the integration of environmental considerations with a view to promoting sustainable development, the Proposed Amendments would not be likely to result in significant environmental effects.

4. *The characteristics of the plan having regard, in particular, to: environmental problems relevant to the plan*

Environmental problems arise where there is a conflict between current environmental conditions and legislative targets. Through its provisions relating to environmental protection and

management, the Carlow-Graiguecullen Joint Urban Draft Local Area Plan 2024-2030 contributes towards ensuring that environmental conditions do not get worse and, where possible, they contribute towards its amelioration.

Taking the above and the examination of the Proposed Amendments provided under Sections 2.2 to 2.4 into account, arising from environmental problems relevant to the Proposed Amendments and the Draft Plan, the Proposed Amendments would not be likely to result in significant environmental effects.

5. *The characteristics of the plan having regard, in particular, to: the relevance of the plan for the implementation of European Union legislation on the environment (e.g. plans linked to waste-management or water protection)*

The Carlow-Graiguecullen Joint Urban Draft Local Area Plan 2024-2030 relates to the land use and town planning sector and has fulfilled requirements in relation to SEA. This process integrated considerations with regard to EU and national legislation on the environment, including those relating to the waste management and the Water Framework Directive.

Taking the above and the examination of the Proposed Amendments provided under Sections 2.2 to 2.4 into account, arising from the relevance of the Proposed Amendments and the Draft Plan for the implementation of European Union legislation on the environment, the Proposed Amendments would not be likely to result in significant environmental effects.

PART 2

1. Characteristics of the effects and of the area likely to be affected, having regard, in particular, to: the probability, duration, frequency and reversibility of the effects

Proposed Amendments would not necessitate SEA as they would not be likely to result in significant environmental effects (see responses under Schedule 2A Part 1 above and the examination of the various Proposed Amendments provided under Section 2.4).

2. Characteristics of the effects and of the area likely to be affected, having regard, in particular, to: the cumulative nature of the effects

Proposed Amendments would not necessitate SEA as they would not be likely to result in significant environmental effects (see responses under Schedule 2A Part 1 above and the examination of the various Proposed Amendments provided under Section 2.4).

3. Characteristics of the effects and of the area likely to be affected, having regard, in particular, to: the transboundary nature of the effects

Proposed Amendments would not necessitate SEA as they would not be likely to result in significant environmental effects (see responses under Schedule 2A Part 1 above and the examination of the various Proposed Amendments provided under Section 2.4).

4. Characteristics of the effects and of the area likely to be affected, having regard, in particular, to: the risks to human health or the environment (e.g. due to accidents)

Proposed Amendments would not necessitate SEA as they would not be likely to result in significant environmental effects (see responses under Schedule 2A Part 1 above and the examination of the various Proposed Amendments provided under Section 2.4).

5. Characteristics of the effects and of the area likely to be affected, having regard, in particular, to: the magnitude and spatial extent of the effects (geographical area and size of the population likely to be affected)

Proposed Amendments would not necessitate SEA as they would not be likely to result in significant environmental effects (see responses under Schedule 2A Part 1 above and the examination of the various Proposed Amendments provided under Section 2.4).

6. Characteristics of the effects and of the area likely to be affected, having regard, in particular, to: the value and vulnerability of the area likely to be affected due to:

a) special natural characteristics or cultural heritage;

Proposed Amendments would not necessitate SEA as they would not be likely to result in significant environmental effects (see responses under Schedule 2A Part 1 above and the examination of the various Proposed Amendments provided under Section 2.4).

b) exceeded environmental quality standards or limit values, and;

Proposed Amendments would not necessitate SEA as they would not be likely to result in significant environmental effects (see responses under Schedule 2A Part 1 above and the examination of the various Proposed Amendments provided under Section 2.4).

c) intensive land-use.

Proposed Amendments would not necessitate SEA as they would not be likely to result in significant environmental effects (see responses under Schedule 2A Part 1 above and the examination of the various Proposed Amendments provided under Section 2.4).

7. Characteristics of the effects and of the area likely to be affected, having regard, in particular, to: the effects on areas or landscapes which have a recognised national, European Union or international protection status

Proposed Amendments would not necessitate SEA as they would not be likely to result in significant environmental effects (see responses under Schedule 2A Part 1 above and the examination of the various Proposed Amendments provided under Section 2.4).

Section 3 Conclusion

The Proposed Amendments are advised not to result in likely significant effects. Taking into account the measures that have been already integrated into the Draft Plan and the existing Carlow and Laois County Development Plans that provide for and contribute towards environmental protection, environmental management and sustainable development, it is identified that all potential effects arising from the Proposed Amendments: either are present already (beneficial) and will be further contributed towards; or will be mitigated so as not to be significant (adverse). In addition, some amendments merely added clarifications or amended context setting text for Plan provisions and these will not result in significant environmental effects. Consequently, the Proposed Amendments are advised as not requiring SEA.

An SEA Statement will be prepared following adoption of the Plan, which will detail how environmental considerations were integrated into the Plan and how consultations on the SEA and associated Plan-preparation process were considered.
