Re: Part 8 Process for Public Realm Project at Visual/Carlow College

Dear Kathleen,

I confirm that Carlow College fully supports the proposed Part 8 process in respect of the public realm upgrade in the grounds of Carlow College at Visual as per the attached drawings.

We understand that the outcome of the Part 8 process will result in a capital development programme which will be fully funded and managed by Carlow County Council supported by Failte Ireland and which is designed to develop the footfall in the area and therefore promote Carlow College as a campus and Visual as a destination for the benefit of all.

We understand that following the successful completion of the Part 8 process, Carlow County Council will provide Carlow College with a dedicated contact point for the building phase of the project to ensure the works programme to delivered considering the needs of Carlow College as a campus.

We confirm that we have examined the maps and identify that part of that development is proposed on lands current licenced to Carlow County Council and sub licenced to Carlow Arts Centre LTD and a small element on lands are not under licence and as owner of the property we give our formal permission for the Part 8 process based on the drawings attached.

Yours sincerely

Fr Conn Ó Maoldhomhnaigh
President
