

Chapter 9: Landscape and Green Infrastructure

Amendment No. 64

Remove the addition of “Blue” Infrastructure at this late stage of the plan and
“Green and blue infrastructure is essentially the green spaces and the water environment.”

- (1) Blue Infrastructure and Green Infrastructure are different and the addition of this definition is not acceptable at this stage in the plan.
- (2) There has been no chance to comment on and interrogate the inclusion of “Blue” Infrastructure in the Plan in this section titled Benefits of Green Infrastructure.
- (3) (The Department noted “ It should be acknowledged that in order to achieve CDP Green Infrastructure policy objectives, it will be necessary to map existing and proposed Green Infrastructure and ecological corridors (both existing and proposed) at a settlement plan level as well as at a county level.” **It would also be necessary to map Blue Infrastructure.**
- (4) Links between Green and Blue Infrastructure have not been open to public submission and consultation.
